Pricing of Alcohol

- 5A (1) Alcohol must not be sold on the premises at a price below its minimum price.
(2) Where alcohol is supplied together with other products or services for a single price, sub-paragraph (1) applies as if the alcohol were supplied on its own for that price.
(3) The minimum price of alcohol is to be calculated according to the following formula—
$$\text{MPU} \times \text{S} \times \text{V} \times 100$$

Where—
MPU is the minimum price per unit,

S is the strength of the alcohol, and
V is the volume of the alcohol in litres.

 - (5) For the purposes of sub-paragraph (3), where—
 - (a) the alcohol is contained in a bottle or other container, and
 - (b) the bottle or other container is marked or labelled in accordance with relevant labelling provisions, the strength is taken to be the alcoholic strength by volume as indicated by the mark or label.
 - (6) The Scottish Ministers are to specify by order the enactments which are relevant labelling provisions for the purposes of sub-paragraph (5)
- 5B (1) A package containing two or more alcoholic products (whether of the same or different kinds) may only be sold on the premises at a price equal to or greater than the sum of the prices at which each alcoholic product is for sale.
- (2) Sub-paragraph (1) applies –
 - (a) only where each of the alcoholic products is for sale on the premises separately, and
 - (b) regardless of whether or not the package also contains any item which is not an alcoholic product.
 - (3) In this paragraph “alcoholic product” means a product containing alcohol and includes the container in which alcohol is for sale.
6. Where the price at which any alcohol sold on the premises for consumption on the premises is varied—
- (a) the variation (referred to in this paragraph as “the earlier price variation”) may be brought into effect only at the beginning of a period of licensed hours, and
